California seeks train operator cell phone ban

By DAISY NGUYEN, Associated Press Writer

Tue Sep 16, 6:22 AM ET

“Amid a federal investigation into whether a commuter train engineer was texting before a deadly collision with another train, the state's top rail safety regulator is seeking an emergency order banning train operators from using cell phones.”

“Metrolink has blamed its engineer for not heeding a red light signal designed to prevent such wrecks, and the National Transportation Safety Board is reviewing whether the engineer was text messaging.”
